

Increased reliability and minimize your downtime from the manufacturer.

Sirius offer Unscheduled Service to ensure a pay-as-you-go callout when you need us . . .

performance to with support direct

Maximize the value in your technology

. . . or choose a comprehensive Preventative Maintenance contract ensuring your instrument downtime is kept to an absolute minimum.

SERVICE

Benefits of taking out a Preventative Maintenance contract include:

- ✦ high priority on-site response
- ✦ priority repair service at a discounted rate
- ✦ proactive support to prevent failures
- ✦ certified and Sirius-trained engineers
- ✦ on-line technical support
- ✦ avoid losing valuable samples
- ✦ avoid unscheduled downtime
- ✦ fixed economic costs

Unscheduled Service

This is the contract for you if you want pay-as-you-go service cover. Although it does not offer the benefits of the Preventative Maintenance contract, you can be sure that all work is carried out by fully trained and certified engineers. Our rapid response time ensures your downtime is kept to a minimum.

Preventative Maintenance contract

- ✦ Highly skilled Sirius-certified engineers use dedicated procedures to assess the operation of your instrument.
- ✦ We take appropriate preventative and corrective actions to optimize system performance.
- ✦ These proactive measures eliminate potential problems before they arise and ensure that your instrument operates according to our high performance specifications.
- ✦ Your instrument will be re-calibrated, tested and certified to Sirius' original standards for compliance with GLP standards..

Preventative Maintenance contracts are offered for all Sirius instruments:

- GLpKa
- D-PAS
- GLpH
- PCA200
- ProfilerSGA
- ProfilerLDA

And include a comprehensive list of spare parts, subject to normal wear and tear.
